

Legislation

- For introduction of electronic services and not only services, it was necessary to accept a number of regulations and laws. Three groups of laws and regulations were solving:
- The first group: Law No. 365/2000 Col. „About information systems of public management” and subsequent,
- The second group: Law No. 499/2004 Col. „About archival business and office-work” and subsequent.
- The three group: Law No. 300/2008 Col. „About electronic certificates, personal numbers and the authorised converting of documents” and subsequent.

Legislation

- The first group:
 - Law No. 365/2000 Col. „On information systems of public administration” and subsequent i.e.:
 - Law No. 111/2009 Col. „On the Basic Registries”
 - Regulation No. 469/2006 Col. „On Information system about data elements”
 - Regulation No. 528/2006 Col. „On Information system about Information systems of Public Administration”

”

Legislation

- The second group:
 - Law No. 499/2004 Col. „About archival business and office-work”
and subsequent, i.e.:
 - Regulation No. 212/2012 „About office-work“
 - Law No. 227/2000 Col. „About electronics signature“
 - Law No.500/2004 Col. Správní řád
 - MoReq 2 — CERINȚE MODEL PENTRU MANAGEMENTUL ACTELOR
ELECTRONICE, Actualizare și dezvoltare, 2008
 - ISO 15489-1 Information and documentation - Record management –
Part 1: General
 - ISO TR 15489-2 Information and documentation - Record management –
Part 2: Guidelines
 - ISO 23081-1 Information and documentation - Record management processes –
Metadata for records – Part 1: Principles
 - ISO 23081-2 Information and documentation - Record management processes –
Metadata for records – Part 1: Conceptual and implementation issues

Legislation

- The three group:
Law No. 300/2008 Col. „About electronic certificates, personal numbers and the authorised converting of documents”
and subsequent, i.e.:
- Acceptance of these three groups of laws, regulations has opened a way to
electronification of public administration, including to implementation of electronic
services not only for the population but first of all for all public sphere, also filling
of slogan: **“the „data must and not the citizen**

Vă mulțumim pentru atenție.
